CT Budine spoke about changes in the water budget. The State is going to set requirements for more water testing and water line replacement. Discussion followed about how much these lines had to be increased. Also, concerns were raised over the potential raise in fuel and energy costs.

Next CT Budine told the Board that the debt portion of the water bill went down considerably with the payoff of the EFC loan.

The board then moved on to the General Fund budget and wanted to move money out of Street lighting and into fuel.
