CERTIFICATION

Application is hereby made for the issuance of a floodplain development permit. The applicant certifies that the above statements are true and agrees that the issuance of the permit is based on the accuracy thereof. False statements made herein are punishable under law. As a condition to the issuance of a permit, the applicant accepts full responsibility for all damage, direct or indirect, of whatever nature, and by whomever suffered, arising out of the project described herein and agrees to indemnify and save harmless the community from suits, actions, damages and costs of every name and description resulting from the said project. Further, the applicant agrees that the issuance of a permit is not to be interpreted as a guarantee of freedom from risk of future flooding. The applicant certifies that the premises, structure, development, etc., will not be utilized or occupied until a certificate of compliance has been applied for and received.

**General Instructions for
Permit Application for Development in Special Flood Hazard Areas**

1. Please submit the attached application in duplicate, together with an application fee of \$ _____, payable to the Village of Deposit.
2. A copy of Chapter 80 of the Village of Deposit Code, entitled "Flood Damage Prevention" is attached to these instructions.
3. Include with your application plans, in duplicate, drawn to scale and showing the nature, location, dimensions, and elevations of the area in question; existing or proposed structures, fill, storage of materials, drainage facilities, and the location of the foregoing. Include the following information where applicable:
 - A. Application Stage. The following information is required where applicable:
 - (1) Elevation in relation to mean sea level of the proposed lowest floor, including basement or cellar, of all structures.
 - (2) Elevation in relation to mean sea level to which any nonresidential structure will be floodproofed.
 - (3) When required, a certificate from a licensed professional engineer or architect that the utility flood-proofing will meet the criteria in §80-13C(1).
 - (4) A certificate from a licensed professional engineer or architect that the nonresidential floodproofed structure will meet the floodproofing criteria in §80-14B.
 - (5) A description of the extent to which any watercourse will be altered or relocated as a result of proposed development.
 - B. Construction Stage: Include a certificate of the as-built elevation of the lowest floor or flood-proofed elevation, in relation to mean sea level, prepared by or under the direction of a licensed land surveyor, professional engineer, or architect, and certified by same.
4. If new construction, please include information about anchoring, construction materials and methods, and utilities, if applicable, in accordance with Section 80-13 of the Village Code.
